BILL'S JOURNEY

Written between the summer of
2007 and the fall of 2011.

Print date ~ December 10, 2011

The story begins before my birth so it covers a longish period of time. It may be more interesting in 3011 than 2011.

The family and I have had many changes over this period. We've experienced rises and falls in fortune, health, marital status and location. The dates may be somewhat confusing. Don't worry. It'll come together after a while.

It is intended for family and friends.
